CAREER OBJECTIVE

Motivated Bachelor of Computer Applications graduate with strong foundations in web development, Python, and problem-solving. Experienced in building real-world projects including AI-based and full-stack applications. Seeking an entry-level Software Engineer role where I can contribute to development, learn industry practices, and grow as a developer.

EDUCATION

Bachelor of Computer Applications (BCA)
Mysore University – Vidya Vikas First Grade College, Mysore
2025 | CGPA: 7.45

Pre-University Course (PUC)
Maharaja PU College, Mysore
2022 | Percentage: 45.5%

SSLC (CBSE)
Baden Powell Public School, Mysore
2020 | CGPA: 6.0

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python
Frameworks: Flask, Node.js, Express
Database: SQL (Basic)
Tools: Git, GitHub
Core Concepts: Data Structures & Algorithms (Arrays, Strings, Basics), OOP

PROJECTS

AI Intraday Trading System *(Python, Flask, Machine Learning)*

- Built an AI-based stock prediction system using LSTM models and multiple technical indicators (RSI, MACD, Bollinger Bands, ATR, OBV)
- Developed a Flask-based web application with authentication and interactive chart visualization
- Implemented a decision engine to generate BUY/SELL signals based on market trends and risk scoring

---

Traffic Sign Detection System *(YOLOv8, Python, OpenCV)*

- Developed a real-time traffic sign detection system using YOLOv8 for accurate object recognition
- Designed an image upload interface with output visualization for detected signs
- Utilized OpenCV and PIL for image processing and annotation

---

Pharmacy E-Commerce Website *(Full-Stack Web Development)*

- Built a responsive e-commerce platform with product catalog and cart functionality
- Developed backend using Node.js and Express for handling user requests
- Integrated WhatsApp-based ordering system for seamless user interaction

---

EXPERIENCE

Customer Service Associate Intern
Technotask Business Solutions Pvt Ltd, Mysore
Sep 2025 – Nov 2025

- Resolved high-volume customer queries using structured problem-solving and communication
- Maintained high customer satisfaction through professional and timely responses
- Developed multitasking and adaptability skills in a fast-paced work environment

---

CERTIFICATIONS

- DevFest Mysuru 2025 – Google Developers

ADDITIONAL STRENGTHS

- Strong communication and teamwork skills
- Quick learner with adaptability to new technologies
- Problem-solving mindset with attention to detail

LANGUAGES

English, Hindi, Kannada, Marathi
